## Oxford Lane Capital Corp.

November 16, 2015

To Our Shareholders:

We are pleased to submit to you the report of Oxford Lane Capital Corp. (“we”, “us”, “our”, the “Fund” or “Oxford Lane”) for the six months ended September 30, 2015. The net asset value of our shares at that date was \$11.33 per common share. The Fund’s common stock is traded on the NASDAQ Global Select Market and its share price can differ from its net asset value. The Fund’s closing price at September 30, 2015 was \$11.41, down from \$14.82 at March 31, 2015. The total return for Oxford Lane, for the six months ended September 30, 2015, as reflected in the Fund’s financial highlights, was (15.54%). This return reflects the change in market price for the period, as well as the positive impact of \$1.20 per share in distributions declared and paid of \$0.60 per share and \$0.60 distributions declared and unpaid. On November 13, 2015, the last reported sale price of the Fund’s common stock was \$11.18.

We draw your attention to our distribution policy, which has been discussed in earlier reports, as we believe that the Fund’s position deserves close attention. Oxford Lane is subject to significant and variable differences between its accounting income and its taxable income particularly as it relates to our collateralized loan obligation (“CLO”) equity investments. We invest in CLO entities which generally constitute “passive foreign investment companies” and which are subject to complex tax rules; the calculation of taxable income attributed to a CLO equity investment can be dramatically different from the calculation of income for financial reporting purposes. Taxable income is based upon the distributable share of earnings as determined under tax regulations for each CLO equity investment, which may be consistent with the cash flows generated by those investments (although significant differences are possible), while accounting income is currently based upon an effective yield calculation. The Fund’s final taxable earnings for the six months ending September 30, 2015 will not be known until our tax returns are filed but our experience has been that cash flows have historically represented a generally reasonable estimate of taxable earnings. While reportable GAAP earnings from our CLO equity investments for the six months ended September 30, 2015 were approximately \$28.6 million, we received or were entitled to receive approximately \$43.1 million in distributions. In general, we currently expect our annual taxable income to be higher than our GAAP earnings on the basis of the difference between cash distributions actually received (and record date distributions to be received) and the effective yield income. Our distribution policy is based upon our estimate of our taxable net investment income, with further consideration given to our realized gains or losses, if any, on a taxable basis.

### **Investment Review**

The Fund’s investment objective is to maximize its portfolio’s risk adjusted total return over our investment horizon. Our current focus is to seek that return by investing in structured finance investments, specifically CLO vehicles which primarily own senior secured corporate loans. Our investment strategy also includes investing in warehouse facilities, which are financing structures intended to aggregate senior secured corporate loans that may be used to form the basis of a CLO vehicle. As of September 30, 2015, we held debt investments in three different CLO structures, equity investments in 38 different CLO structures, and subordinated notes (i.e. “equity”) in two warehouse facilities. We may also invest, on an opportunistic basis, in corporate debt securities on a direct basis and a variety of other corporate credits.

The Fund has thus far implemented its investment objective by purchasing in both the primary and secondary markets the income notes and subordinated notes (sometimes referred to as “equity”) and junior debt tranches of various CLO vehicles and the equity tranches of various warehouse facilities. Structurally, CLO vehicles are entities formed to purchase and manage portfolios of primarily senior secured corporate loans.

The loans within a CLO vehicle are limited to those which, on an aggregated basis, meet established credit criteria. They are subject to concentration limitations in order to limit a CLO vehicle’s exposure to individual credits and industries. The CLO vehicles which the Fund focuses on are collateralized primarily by senior secured corporate loans, and generally have minimal or no exposure to real estate loans, mortgage loans or to pools of consumer-based debt, such as credit card receivables or auto loans.

## **Investment Outlook**

We believe that the market for CLO-related assets continues to provide us with the opportunities to generate attractive risk-adjusted returns within our strategies over the long term. We believe that a number of factors support this conclusion, including:

- We believe that the long-term and relatively low-cost capital that many CLO vehicles have secured, compared with current asset spreads and associated LIBOR floors have created opportunities to purchase certain CLO equity and junior debt instruments that may produce attractive risk-adjusted returns. Although the senior secured corporate loan market has been volatile recently due in part to the oil and gas and commodities related sectors, this volatility may be beneficial as it has allowed some collateral managers of CLO vehicles to invest in loans at greater discounts to par and at wider loan spreads. Additionally, given that the CLO vehicles we invest in are not mark-to-market vehicles, this term financing is extremely beneficial in periods of market volatility that we are currently experiencing. We believe that CLO equity and junior debt instruments continue to offer attractive risk-adjusted returns.
- We believe that the market to invest in warehouse facilities, which are short and medium-term facilities that are generally expected to form the basis of CLO vehicles (which the Fund may participate in or be repaid by), has created additional attractive risk-adjusted investment opportunities for us.
- We believe that investing in CLO securities, and CLO equity instruments and warehouse facilities in particular, requires a high level of research and analysis. We believe that transactions in this market can only be adequately conducted by knowledgeable market participants since this market and these structures tend to be highly specialized.
- We believe that the U.S. risk retention requirements imposed for CLO managers under Section 941 of the Dodd-Frank Act has created some uncertainty in the market in regards to future CLO issuances. Given that certain CLO managers may require capital provider partners to satisfy this requirement when it becomes effective on December 24, 2016, we believe that this may create additional opportunities (and additional risks) for us in the future.
- We believe that the U.S. CLO market is relatively large with total assets under management of approximately \$426 billion.<sup>(1)</sup> We estimate that the amount outstanding of the junior-most debt tranches (specifically the tranches originally rated “BB” and “B”) and equity tranches together are approximately \$65 billion.<sup>(2)</sup>

An investment in our Fund carries with it a significant number of meaningful risks, certain of which are discussed in the notes to our financial statements. Investors should read “Note 11. Risks and Uncertainties” carefully.

We continue to review a large number of CLO investment vehicles in the current market environment, and we expect that the majority of our portfolio holdings, over the near to intermediate-term, will continue to be focused on CLO debt and equity securities, with the more significant focus over the near-term on CLO equity securities and warehouse facilities.

Jonathan H. Cohen  
Chief Executive Officer

- (1) We do not “control” and are not an “affiliate” of any of our portfolio companies, each as defined in the Investment Company Act of 1940 (the “1940 Act”). In general, under the 1940 Act, we would be presumed to “control” a portfolio company if we owned 25% or more of its voting securities and would be an “affiliate” of a portfolio company if we owned 5% or more of its voting securities.
- (2) Fair value is determined in good faith by the Board of Directors of the Fund.
- (3) Notes bear interest at variable rates.
- (4) Cost value reflects accretion of original issue discount or market discount, and amortization of premium.
- (5) The CLO secured notes generally bear interest at a rate determined by reference to 90 day LIBOR which resets quarterly. For each CLO debt investment, the rate provided is as of September 30, 2015.
- (6) The CLO subordinated notes, preference shares and income notes are considered equity positions in the CLO funds. Equity investments are entitled to recurring distributions which are generally equal to the remaining cash flow of the payments made by the underlying fund’s securities less contractual payments to debt holders and fund expenses. The estimated yield indicated is based upon a current projection of the amount and timing of these recurring distributions and the estimated amount of repayment of principal upon termination. Such projections are periodically reviewed and adjusted, and the estimated yield may not ultimately be realized.
- (7) Fair value represents discounted cash flows associated with fees earned from CLO equity investments.
- (8) Investment has not made inaugural distribution for relevant period end. See “Note 2. Summary of Significant Accounting Policies — Investment Interest Income — Equity Investments.”
- (9) The subordinated notes represent an investment in a warehouse facility, which is a financing structure intended to aggregate loans that may be used to form the basis of a CLO vehicle. Income on CLO warehouse facilities is based on a stated rate as per the underlying note purchase agreement or an estimated rate.

**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2015**  
**(unaudited)**

**NOTE 1. ORGANIZATION**

Oxford Lane Capital Corp. (“OXLC,” “we” or the “Fund”) was incorporated under the General Corporation Laws of the State of Maryland on June 9, 2010. The Fund is a non-diversified closed-end management investment company that has registered under the Investment Company Act of 1940, as amended (the “1940 Act”). In addition, the Fund has elected to be treated for tax purposes as a regulated investment company (“RIC”) under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”). The Fund’s investment objective is to maximize its portfolio’s risk adjusted total return and seeks to achieve its investment objective by investing in structured finance investments, specifically collateralized loan obligation (“CLO”) vehicles which primarily own senior corporate debt securities. The Fund follows the accounting and reporting requirements of ASC 946, *Financial Services — Investment Companies* (“ASC 946”), for reporting on Form N-CSR and the Fund maintains its accounting records in U.S. dollars.

OXLC’s investment activities are managed by Oxford Lane Management, LLC (“OXLC Management”), a registered investment adviser under the Investment Advisers Act of 1940, as amended. BDC Partners, LLC (“BDC Partners”) is the managing member of OXLC Management and serves as the administrator of OXLC.

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**USE OF ESTIMATES**

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”), which require management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**CASH AND CASH EQUIVALENTS**

The Fund considers all highly liquid investments with an original maturity of three months or less at the time of purchase to be cash equivalents. At September 30, 2015, cash and cash equivalents consisted solely of demand deposits.

**INVESTMENT VALUATION**

The Fund fair values its investment portfolio in accordance with the provisions of ASC 820, *Fair Value Measurement and Disclosure*. Estimates made in the preparation of OXLC’s financial statements include the valuation of investments and the related amounts of unrealized appreciation and depreciation of investments recorded. OXLC believes that there is no single definitive method for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistently applied valuation process for the types of investments OXLC makes.

ASC 820-10 clarified the definition of fair value and requires companies to expand their disclosure about the use of fair value to measure assets and liabilities in interim and annual periods subsequent to initial recognition. ASC 820-10 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820-10 also establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, which includes inputs such as quoted prices for similar securities in active markets and quoted prices for identical securities in markets that are not active; and Level 3, defined as unobservable inputs for which little or no market data exists, therefore requiring an entity to develop its own assumptions. OXLC considers the attributes of current market conditions on an on-going basis and has determined that due to the general illiquidity of the market for its investment portfolio, whereby little or no market data exists, all of OXLC’s investments are based upon “Level 3” inputs as of September 30, 2015.

**OXFORD LANE CAPITAL CORP.**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2015**  
**(unaudited)**

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (continued)**

The Fund may also invest directly in senior secured loans (either in the primary or secondary markets). In valuing such investments, OXLC Management will prepare an analysis of each loan, including a financial summary, covenant compliance review, recent trading activity in the security, if known, and other business developments related to the portfolio company. Any available information, including non-binding indicative bids obtained from a recognized industry pricing service and agent banks which may not be considered reliable, will be presented to the OXLC Board of Directors to consider in its determination of fair value. In some instances, there may be limited trading activity in a security even though the market for the security is considered not active. In such cases the Board will consider the number of trades, the size and timing of each trade and other circumstances around such trades, to the extent such information is available, in its determination of fair value. At September 30, 2015, the Fund did not have any direct investments in senior secured loans.

**Collateralized Loan Obligations — Debt and Equity**

OXLC has acquired debt and equity positions in CLO investment vehicles and has purchased CLO warehouse facilities. These investments are special purpose financing vehicles. In valuing such investments, OXLC considers the operating metrics of the specific investment vehicle, including compliance with collateralization tests, defaulted and restructured securities, and payment defaults, if any. In addition, OXLC considers the indicative prices provided by a recognized industry pricing service as a primary source, and the implied yield of such prices, supplemented by actual trades executed in the market at or around period-end, as well as the indicative prices provided by the broker who arranges transactions in such investment vehicles. OXLC also considers those instances in which the record date for an equity distribution payment falls on the last day of the period, and the likelihood that a prospective purchaser would require a downward adjustment to the indicative price representing substantially all of the pending distribution. Additional factors include any available information on other relevant transactions including firm bids and offers in the market and information resulting from bids-wanted-in-competition. OXLC Management or the Board of Directors may request an additional analysis by a third-party firm to assist in the valuation process of CLO investment vehicles. All information is presented to the Board of Directors for its determination of fair value of these investments.

**SHARE REPURCHASES**

From time to time, the Fund's Board of Directors may authorize a share repurchase program under which shares are purchased in open market transactions. Since the Fund is incorporated in the State of Maryland, state law requires share repurchases to be accounted for as a share retirement. The cost of repurchased shares is charged against capital on the settlement date. Refer to Note 14 for further details.

**PREFERRED STOCK**

The Fund carries its mandatorily redeemable preferred stock at accreted cost on the Statement of Assets and Liabilities, and not fair value. The Fund considers its preferred stock to be a Level 2 liability within the fair value hierarchy. See "Note 6. Mandatorily Redeemable Preferred Stock."

**PREPAID EXPENSES**

Prepaid expenses consist primarily of insurance costs.

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (continued)**

**INVESTMENT INCOME**

***Interest Income — Equity Investments***

Interest income from investments in the equity class securities of CLO vehicles (typically income notes or subordinated notes) is recorded using the effective interest method in accordance with the provisions of ASC 325-40, *Beneficial Interests in Securitized Financial Assets*, based upon an estimation of an effective yield to maturity utilizing assumed cash flows, including those CLO equity investments that have not made their inaugural distribution for the relevant period end. The Fund monitors the expected residual payments, and effective yield is determined and updated quarterly, as needed. Accordingly, investment income recognized on CLO equity securities in the GAAP statement of operations differs from both the tax-basis investment income and from the cash distributions actually received by the Fund during the period.

The Fund also records income on its investments in CLO warehouse facilities based on a stated rate as per the underlying note purchase agreement or an estimated rate.

***Interest Income — Debt Investments***

Interest income is recorded on an accrual basis using the contractual rate applicable to each debt investment and includes the accretion of discounts and amortization of premiums. Discounts from and premiums to par value on securities purchased are accreted/amortized into interest income over the life of the respective security using the effective yield method. The amortized cost of investments represents the original cost adjusted for the accretion of discounts and amortization of premiums, if any.

Generally, when interest and/or principal payments on a loan become past due, or if the Fund otherwise does not expect the borrower to be able to service its debt and other obligations, the Fund will place the loan on non-accrual status and will generally cease recognizing interest income on that loan for financial reporting purposes until all principal and interest have been brought current through payment or due to restructuring such that the interest income is deemed to be collectible. The Fund generally restores non-accrual loans to accrual status when past due principal and interest is paid and, in the Fund's judgment, the payments are likely to remain current. As of September 30, 2015, the Fund had no non-accrual assets held in its portfolio.

***Other Income***

Other income includes distributions from fee letters and success fees associated with portfolio investments. Distributions from CLO equity fee letter investments are an enhancement to the return on a CLO equity investment and are based upon a percentage of the collateral manager's fees, and are recorded as other income when earned. The Fund may also earn success fees associated with its investments in CLO warehouse facilities, which are contingent upon a take-out of the warehouse by a permanent CLO structure; such fees are earned and recognized when the take-out is completed.

**U.S. FEDERAL INCOME TAXES**

The Fund intends to operate so as to qualify to be taxed as a RIC under Subchapter M of the U.S. Tax Code and, as such, to not be subject to U.S. federal income tax on the portion of its taxable income and gains distributed to stockholders. To qualify for RIC tax treatment, OXLC is required to distribute at least 90% of its investment company taxable income, as defined by the Code.

Because U.S. federal income tax regulations differ from GAAP, distributions in accordance with tax regulations may differ from net investment income and realized gains recognized for financial reporting purposes. Differences may be permanent or temporary. Permanent differences are reclassified among capital accounts in the financial statement to reflect their tax character. Temporary differences arise when certain items of income, expense, gain or loss are recognized at some time in the future.

**OXFORD LANE CAPITAL CORP.**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2015**  
**(unaudited)**

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (continued)**

Differences between distributions and net investment income may also result from the treatment of short-term gains as ordinary income for tax purposes. Our distribution policy is based upon our estimate of our distributable net investment income, which includes actual distributions from our CLO equity class investments, with further consideration given to our realized gains or losses on a taxable basis.

As of September 30, 2015, the aggregate gross unrealized appreciation for tax purposes was \$4,843,990; and aggregate gross unrealized depreciation was \$88,289,481. For tax purposes, the cost basis of the portfolio investments at September 30, 2015 was \$444,207,434.

**DISTRIBUTIONS**

Distributions from net investment income and capital gain distributions are determined in accordance with U.S. federal income tax regulations, which differ from GAAP. Distributions from net investment income, if any, are expected to be declared and paid quarterly. Net realized capital gains, unless offset by any available capital loss carry-forward, are typically distributed to shareholders annually. Distributions to shareholders are recorded on the ex-dividend date and are automatically reinvested in full and fractional shares of the Fund in accordance with the Fund's distribution reinvestment plan, unless the shareholder has elected to have them paid in cash.

Amounts required to be distributed reflect estimates made by the Fund. Distributions paid by the Fund are subject to re-characterization for tax purposes.

**SECURITIES TRANSACTIONS**

Securities transactions are recorded on trade date. Realized gains and losses on investments sold are recorded on the basis of specific identification.

**DEFERRED OFFERING COSTS ON COMMON STOCK**

Deferred offering costs consist principally of legal, accounting, filing and underwriting fees incurred in relation to an offering proposed by the Fund. The deferred offering costs will be charged to capital when the offering takes place or as shares are issued. Costs related to shelf offerings are charged to capital as securities registered are issued. Deferred costs are periodically reviewed and expensed if the related registration statement is no longer active or if the offering is unsuccessful.

**DEFERRED ISSUANCE COSTS ON MANDATORILY REDEEMABLE PREFERRED STOCK**

Deferred debt issuance costs consist of fees and expenses incurred in connection with the closing of preferred stock offerings, and are capitalized when incurred. These costs are amortized using the straight line method over the term of the respective preferred stock. This amortization expense is included in interest expense in the Fund's financial statements. Upon early termination of preferred stock, the remaining balance of unaccreted fees related to such debt is accelerated into interest expense.

(1) On July 24, 2015, OXLC redeemed all issued and outstanding Series 2017 Term Shares at the term redemption price.

*Significant Unobservable Inputs for Level 3 Investments*

In accordance with ASC 820-10, the following table provides quantitative information about the Fund's Level 3 fair value measurements as of September 30, 2015. The Fund's valuation policy, as described above, establishes parameters for the sources and types of valuation analysis, as well as the methodologies and inputs that the Fund uses in determining fair value. If the Board of Directors or OXLC Management determines that additional techniques, sources or inputs are appropriate or necessary in a given situation, such additional work may be undertaken. The weighted average calculations in the table below are based on the principal balances within each respective valuation techniques and methodologies and asset category.

**NOTE 3. FAIR VALUE – (continued)**

- (1) The Fund generally uses prices provided by an independent pricing service or broker or agent bank non-binding indicative bid prices (“NBIB”) on or near the valuation date as the primary basis for the fair value determinations for CLO debt and equity investments, which may be adjusted for pending equity distributions as of valuation date. These bid prices are non-binding, and may not be determinative of fair value. Each bid price is evaluated by the Board of Directors in conjunction with additional information compiled by OXLC Management, including performance and covenant compliance information as provided by the independent trustee.
- (2) Prices provided by independent pricing service are evaluated in conjunction with actual trades, and in certain cases, the value represented by actual trades may be more representative of fair value as determined by the Board of Directors.

Significant increases or decreases in any of the unobservable inputs in isolation may result in a significantly lower or higher fair value measurement.

A reconciliation of the fair value of investments for the year ended September 30, 2015, utilizing significant unobservable inputs, is as follows:

	<b>Collateralized Loan Obligation Debt Investments</b>	<b>Collateralized Loan Obligation Equity Investments</b>	<b>Total</b>

(1) Includes rounding adjustments to reconcile period balances.

The Fund’s policy is to recognize transfers in and transfers out of valuation levels as of the beginning of the reporting period. There were no transfers between Level 1, Level 2 and Level 3 during the six months ended September 30, 2015.

**NOTE 4. RELATED PARTY TRANSACTIONS**

Effective September 9, 2010, the Fund entered into an Investment Advisory Agreement with OXLC Management, a registered investment adviser under the Investment Advisers Act of 1940, as amended. BDC Partners is the managing member of OXLC Management and serves as the administrator of OXLC.

**OXFORD LANE CAPITAL CORP.**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2015**  
**(unaudited)**

**NOTE 4. RELATED PARTY TRANSACTIONS – (continued)**

Pursuant to the Investment Advisory Agreement, the Fund has agreed to pay OXLC Management a fee for advisory and management services consisting of two components — a base management fee and an incentive fee.

The base-management fee is calculated at an annual rate of 2.00% of the Fund's gross assets. For services rendered under the Investment Advisory Agreement, the base management fee is payable quarterly in arrears. The base management fee is calculated based on the average value of the Fund's gross assets, at the end of the two most recently completed calendar quarters, and appropriately adjusted for any share issuances or repurchases during the current calendar quarter. Base management fees for any partial month or quarter will be appropriately pro-rated.

The incentive fee is calculated and payable quarterly in arrears based on the pre-incentive fee net investment income for the immediately preceding calendar quarter. For this purpose, pre-incentive fee net investment income means interest income from equity investments, interest income from debt investments and any other income (including any other fees, such as commitment, origination, structuring, diligence and consulting fees or other fees that are received from an investment) accrued during the calendar quarter, minus our operating expenses for the quarter (including the base management fee, expenses payable under the Administration Agreement to BDC Partners, and any interest expense and dividends paid on any issued and outstanding preferred stock, but excluding the incentive fee). Pre-incentive fee net investment income includes accrued income that we have not yet received in cash, such as the amount of any market discount we may accrue on debt instruments we purchase below par value. Pre-incentive fee net investment income does not include any realized capital gains. Pre-incentive fee net investment income, expressed as a rate of return on the value of our net assets at the end of the immediately preceding calendar quarter, is compared to a hurdle of 1.75% per quarter (7.00% annualized). For such purposes, our quarterly rate of return is determined by dividing our pre-incentive net investment income by our reported net assets as of the prior period end. Our net investment income used to calculate this part of the incentive fee is also included in the amount of our gross assets used to calculate the 2.00% base management fee. We pay Oxford Lane Management an incentive fee with respect to our pre-incentive fee net investment income in each calendar quarter as follows:

- No incentive fee in any calendar quarter in which the Fund's pre-incentive fee net investment income does not exceed the hurdle of 1.75%;
- 100% of pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle but is less than 2.1875% in any calendar quarter (8.75% annualized). The Fund refers to this portion of the pre-incentive fee net investment income (which exceeds the hurdle but is less than 2.1875%) as the "catch-up." The "catch-up" is meant to provide the investment adviser with 20% of the pre-incentive fee net investment income as if a hurdle did not apply if the net investment income exceeds 2.1875% in any calendar quarter; and
- 20% of the amount of pre-incentive fee net investment income, if any, that exceeds 2.1875% in any calendar quarter (8.75% annualized) is payable to OXLC Management (once the hurdle is reached and the "catch-up" is achieved, 20% of all pre-incentive fee net investment income thereafter is allocated to OXLC Management).

There is no offset in subsequent quarters for any quarter in which an incentive fee is not earned. For the six months ended September 30, 2015, the Fund accrued incentive fee expenses of approximately \$3.3 million. At September 30, 2015, the Fund had an incentive fee payable of approximately \$1.5 million.

Effective September 9, 2010, the Fund entered into an administration agreement with BDC Partners to serve as its administrator. Under the administration agreement, BDC Partners performs, or oversees the

performance of, the Fund's required administrative services, which include, among other things, being responsible for the financial records which the Fund is required to maintain and for preparation of the reports to the Fund's stockholders.

In addition, BDC Partners assists the Fund in determining and publishing the Fund's net asset value, overseeing the preparation and filing of the Fund's tax returns and the printing and dissemination of reports to the Fund's stockholders, and generally overseeing the payment of the Fund's expenses and the performance of administrative and professional services rendered to the Fund by others. Payments under the administration agreement are equal to an amount based upon the Fund's allocable portion of BDC Partners' overhead in performing its obligations under the administration agreement, including rent, and the Fund's allocable portion of the compensation of the Fund's chief financial officer and any administrative support staff, including accounting personnel. Other expenses that are paid by the Fund include legal, compliance, audit and tax services, market data services, excise taxes, if any, and miscellaneous office expenses. The administration agreement may be terminated by either party without penalty upon 60 days' written notice to the other party. The costs associated with the functions performed by our chief compliance officer are paid directly by the Fund pursuant to the terms of an agreement between the Fund and Alaric Compliance Services, LLC.

Until July 29, 2015, independent directors received an annual fee of \$35,000, which was increased to \$75,000 effective July 29, 2015. In addition, the independent directors receive \$2,000 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each Board of Directors meeting, \$1,500 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each Valuation Committee meeting and \$1,000 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each Audit Committee meeting. Until July 29, 2015, the Chairman of the Audit Committee also received an additional annual fee of \$5,000, which was increased to \$10,000 effective July 29, 2015. No compensation will be paid to directors who are interested persons of the Fund as defined in the 1940 Act. Certain directors, officers and other related parties, including members of OXLC Management, owned an aggregate 3.1% of the common stock of the Fund at September 30, 2015.

**NOTE 5. CONCENTRATION OF CREDIT RISK**

The Fund places its cash and cash equivalents with financial institutions and, at times, cash held in checking accounts may exceed the Federal Deposit Insurance Corporation insured limit. In addition, the Fund's portfolio may be concentrated in a limited number of investments, which will subject the Fund to a risk of significant loss if any of these investments defaults on its obligations under any of its debt securities that the Fund holds or if those sectors experience a market downturn.

**NOTE 6. MANDATORILY REDEEMABLE PREFERRED STOCK**

The Fund has authorized 10 million shares of mandatorily redeemable preferred stock, at a par value of \$0.01 per share, and had 6,790,433 shares issued and outstanding at September 30, 2015. Since 2012 through September 30, 2015, the Fund completed underwritten public offerings of its 8.50% Series 2017 Term Preferred Shares (the "Series 2017 Shares"), 7.50% Series 2023 Term Preferred Shares (the "Series 2023 Shares") and 8.125% Series 2024 Term Preferred Shares (the "Series 2024 Shares"), collectively the "Term Preferred Shares" or "Term Shares." The Fund is required to redeem all of the outstanding Term Preferred Shares on their respective redemption dates, at a redemption price equal to \$25 per share plus an amount equal to accumulated but unpaid dividends, if any, to the date of the redemption. OXLC cannot effect any amendment, alteration, or repeal of the Fund's obligation to redeem all of the Term Shares without the prior unanimous vote or consent of the holders of such Term Shares. At any time on or after the optional redemption date, at the Fund's sole option, the Fund may redeem the Term Shares at a redemption price per share equal to the sum of the \$25 liquidation preference per share plus an amount equal to accumulated but unpaid dividends, if any, on such Term Shares.

**NOTE 7. PURCHASES AND SALES AND REPAYMENTS OF SECURITIES**

Purchases of securities totaled approximately \$73.4 million, and sales and repayments of securities totaled approximately \$24.2 million, excluding short-term investments, for the six months ended September 30, 2015.

**NOTE 8. COMMITMENTS AND CONTINGENCIES**

In the normal course of business, the Fund enters into a variety of undertakings containing a variety of warranties and indemnifications that may expose the Fund to some risk of loss. The risk of future loss arising from such undertakings, while not quantifiable, is expected to be remote.

As of September 30, 2015, the Fund did not have any commitments to purchase additional debt or equity investments.

The Fund is not currently subject to any material legal proceedings. From time to time, the Fund may be a party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of the Fund's rights under contracts with its portfolio companies. While the outcome of these legal proceedings cannot be predicted with certainty, the Fund does not expect that these proceedings will have a material effect upon its financial condition or results of operations.

**NOTE 9. INDEMNIFICATION**

Under the Fund's organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business the Fund enters into contracts that contain a variety of representations which provide general indemnifications. The Fund's maximum exposure under these agreements cannot be known, however, the Fund expects any risk of loss to be remote.

**NOTE 11. RISKS AND UNCERTAINTIES**

The U.S. capital markets have recently experienced periods of extreme volatility and disruption. Disruptions in the capital markets tend to increase the spread between the yields realized on risk-free and higher risk securities, resulting in illiquidity in parts of the capital markets. The Fund believes these conditions may reoccur in the future. A prolonged period of market illiquidity may have an adverse effect on the Fund's business, financial condition and results of operations. Adverse economic conditions could also limit the Fund's access to the capital markets or result in a decision by lenders not to extend credit to the Fund. These events could limit the Fund's investment purchases, limit the Fund's ability to grow and negatively impact the Fund's operating results.

OXLC Management's investment team also presently manages the portfolios of TICC Capital Corp., a publicly-traded business development company that invests principally in the debt of U.S.-based companies, TICC Funding LLC, a direct subsidiary of TICC Capital Corp., the assets of which are included in the gross assets of TICC Capital Corp., and TICC CLO 2012-1 LLC, a direct subsidiary of TICC Capital Corp., the assets of which are included in the gross assets of TICC Capital Corp. Additionally, the OXLC Management's investment team also manages the portfolio of Oxford Bridge, LLC, a limited liability company that invests principally in the equity of CLOs. In certain instances, the Fund may co-invest on a concurrent basis with affiliates of its investment adviser, subject to compliance with applicable regulations and regulatory guidance and our written allocation procedures. Such co-investment may require exemptive relief from the SEC. If relief is sought, there can be no assurance when, or if, such relief may be obtained. No co-investments that would require exemptive relief have been made. The affiliated entities of the Fund are subject to a written policy with respect to the allocation of investment opportunities.

Given the structure of the Fund's Investment Advisory Agreement with OXLC Management, any general increase in interest rates will likely have the effect of making it easier for OXLC Management to meet the quarterly hurdle rate for payment of income incentive fees under the Investment Advisory Agreement without any additional increase in relative performance on the part of the Fund's investment adviser. In addition, in view of the catch-up provision applicable to income incentive fees under the Investment Advisory Agreement, the investment adviser could potentially receive a significant portion of the increase in the Fund's investment income attributable to such a general increase in interest rates. If that were to occur, the Fund's increase in net earnings, if any, would likely be significantly smaller than the relative increase in the investment adviser's income incentive fee resulting from such a general increase in interest rates.

The Fund's portfolio consists of equity and junior debt investments in CLO vehicles, which involve a number of significant risks. CLO vehicles are typically highly levered (10 – 14 times), and therefore the junior

**OXFORD LANE CAPITAL CORP.**  
**NOTES TO FINANCIAL STATEMENTS**

**(unaudited)**

**NOTE 11. RISKS AND UNCERTAINTIES – (continued)**

debt and equity tranches that the Fund invests in are subject to a higher degree of risk of total loss. As of September 30, 2015, the CLO vehicles in which we were invested had average leverage of 10.5 times and ranged from approximately 7.1 times to 14.1 times levered. In particular, investors in CLO vehicles indirectly bear risks of the underlying debt investments held by such CLO vehicles. The Fund generally has the right to receive payments only from the CLO vehicles, and generally does not have direct rights against the underlying borrowers or the entity that sponsored the CLO vehicle. While the CLO vehicles the Fund targets generally enable the investor to acquire interests in a pool of senior loans without the expenses associated with directly holding the same investments, the Fund generally pays a proportionate share of the CLO vehicles' administrative and other expenses. Although it is difficult to predict whether the prices of indices and securities underlying CLO vehicles will rise or fall, these prices (and, therefore, the prices of the CLO vehicles) will be influenced by the same types of political and economic events that affect issuers of securities and capital markets generally. The failure by a CLO vehicle in which we invest to satisfy financial covenants, including with respect to adequate collateralization and/or interest coverage tests, could lead to a reduction in its payments to us. In the event that a CLO vehicle fails certain tests, holders of debt senior to us may be entitled to additional payments that would, in turn, reduce the payments we would otherwise be entitled to receive. Separately, we may incur expenses to the extent necessary to seek recovery upon default or to negotiate new terms with a defaulting CLO vehicle or any other investment we may make. If any of these occur, it could materially and adversely affect our operating results and cash flows.

The interests the Fund has acquired in CLO vehicles are generally thinly traded or have only a limited trading market. CLO vehicles are typically privately offered and sold, even in the secondary market. As a result, investments in CLO vehicles may be characterized as illiquid securities. In addition to the general risks associated with investing in debt securities, CLO vehicles carry additional risks, including, but not limited to: (i) the possibility that distributions from collateral securities will not be adequate to make interest or other payments; (ii) the quality of the collateral may decline in value or default; (iii) the fact that the Fund's investments in CLO tranches will likely be subordinate to other senior classes of note tranches thereof; and (iv) the complex structure of the security may not be fully understood at the time of investment and may produce disputes with the CLO vehicle or unexpected investment results. The Fund's net asset value may also decline over time if the Fund's principal recovery with respect to CLO equity investments is less than the price that the Fund paid for those investments.

Further, to the extent income from the Fund's CLO equity investments (which the Fund expects to decline as those vehicles deleverage after the end of their respective reinvestment periods) declines or if the Fund transitions its portfolio into lower yielding investments, the Fund's ability to pay future distributions may be harmed.

An increase in LIBOR would materially increase the CLO vehicles' financing costs. Since most of the collateral positions within the CLO investments have LIBOR floors, there may not be corresponding increases in investment income (if LIBOR increases but stays below the LIBOR floor rate of such investments) resulting in materially smaller distribution payments to the equity investors.

To illustrate the potential impact of a change in the underlying interest rate on our total estimated taxable income as it pertains to our CLO investments, we have assumed a 1% increase in the underlying three-month LIBOR, and no other change in our CLO portfolio, or to any of the credit, spread, default rate or other factors, as of September 30, 2015. Under this analysis, we currently estimate the effect on total estimated taxable income to equal a decrease of approximately \$27.7 million on an annualized basis, reflecting the portfolio assets held within these CLO vehicles which have implied floors that would be unaffected by a 1% change in the underlying interest rate, compared to the debt carried by those CLO vehicles which are at variable rates and which would be affected by a change in three-month LIBOR. Although management believes that this analysis is broadly indicative of our existing LIBOR sensitivity, it does not adjust for

**OXFORD LANE CAPITAL CORP.**  
**NOTES TO FINANCIAL STATEMENTS**

**(unaudited)**

**NOTE 11. RISKS AND UNCERTAINTIES – (continued)**

changes in any of the other assumptions that could effect the return on CLO equity investments, both positively and negatively (and which could accompany changes to the three-month LIBOR rate), such as default rates, recovery rates, prepayment rates, reinvestment rates, and other factors that could affect the net increase (or decrease) in net assets resulting from operations. Accordingly, it is highly probable that actual results would differ materially from the results under this hypothetical analysis.

OXLC Management anticipates that the CLO vehicles in which the Fund invests may constitute “passive foreign investment companies” (“PFICs”). If the Fund acquires shares in a PFIC (including equity tranche investments in CLO vehicles that are PFICs), the Fund may be subject to federal income tax on a portion of any “excess distribution” or gain from the disposition of such shares even if such income is distributed as a taxable dividend by the Fund to its stockholders. Certain elections may be available to mitigate or eliminate such tax on excess distributions, but such elections (if available) will generally require the Fund to recognize its share of the PFICs income for each year regardless of whether the Fund receives any distributions from such PFICs. The Fund must nonetheless distribute such income to maintain its status as a RIC.

If the Fund holds more than 10% of the shares in a foreign corporation that is treated as a controlled foreign corporation (“CFC”) (including equity tranche investments in a CLO vehicle treated as a CFC), the Fund may be treated as receiving a deemed distribution (taxable as ordinary income) each year from such foreign corporation in an amount equal to the Fund’s pro rata share of the corporation’s income for the tax year (including both ordinary earnings and capital gains). If the Fund is required to include such deemed distributions from a CFC in the Fund’s income, it will be required to distribute such income to maintain its RIC status regardless of whether or not the CFC makes an actual distribution during such year.

Legislation commonly referred to as the “Foreign Account Tax Compliance Act” imposes a withholding tax of 30% on payments of U.S. source interest and dividends, or gross proceeds from the disposition of an instrument that produces U.S. source interest or dividends paid after December 31, 2018, to certain non-U.S. entities, including certain non-U.S. financial institutions and investment funds, unless such non-U.S. entity complies with certain reporting requirements regarding its United States account holders and its United States owners. Most CLO vehicles in which we invest will be treated as non-U.S. financial entities for this purpose, and therefore will be required to comply with these reporting requirements to avoid the 30% withholding. If a CLO vehicle in which we invest fails to properly comply with these reporting requirements, it could reduce the amounts available to distribute to equity and junior debt holders in such CLO vehicle, which could materially and adversely affect our operating results and cash flows.

If the Fund is required to include amounts in income prior to receiving distributions representing such income, the Fund may have to sell some of its investments at times and/or at prices management would not consider advantageous, raise additional debt or equity capital or forgo new investment opportunities. If the Fund is not able to obtain cash from other sources, it may fail to qualify for RIC tax treatment and thus become subject to corporate-level income tax. For additional discussion regarding the tax implications of a RIC, see “Note 2. Summary of Significant Accounting Policies — U.S. Federal Income Taxes.”

The Fund’s Series 2023 Shares and Series 2024 Shares pay dividends at a fixed dividend rate. Prices of fixed income investments vary inversely with changes in market yields. The market yields on securities comparable to the Series 2023 Shares and Series 2024 Shares may increase, which would likely result in a decline in the secondary market price of such shares prior to the term redemption date. The Fund may be unable to pay dividends on the Series 2023 Shares and Series 2024 Shares under some circumstances. The terms of any future indebtedness OXLC may incur could preclude the payment of dividends in respect of equity securities, including such shares, under certain conditions.

Given the ten-year original terms, and potential for early redemption, of the Series 2023 Shares and Series 2024 Shares, see “Note 6. Mandatorily Redeemable Preferred Stock,” holders of such shares may face

an increased reinvestment risk, which is the risk that the return on an investment purchased with proceeds from the sale or redemption of such shares may be lower than the return previously obtained from the investment in such shares.

The Fund does not intend to have the Term Preferred Shares rated by any rating agency. Unrated securities usually trade at a discount to similar, rated securities. As a result, there is a risk that any such shares may trade at a price that is lower than they might otherwise trade if rated by a rating agency.

**NOTE 12. RECENT ACCOUNTING PRONOUNCEMENTS**

On February 18, 2015, the FASB issued ASU 2015-2, which updated consolidation standards under ASC Topic 810, “*Consolidation*.” Under this update, a new consolidation analysis is required for variable interest entities (“VIEs”) and will limit the circumstances in which investment managers and similar entities are required to consolidate the entities that they manage. The FASB decided to eliminate some of the criteria under which their fees are considered a variable interest and limit the circumstances in which variable interests in a VIE held by related parties of a reporting enterprise require the reporting enterprise to consolidate the VIE. The guidance is effective for public business entities for annual and interim periods in fiscal years beginning after December 15, 2015. The Fund is assessing the impact of the adoption of ASU 2015-2 on its financial statements.

On April 7, 2015, the FASB issued ASU 2015-3, “*Simplifying the Presentation of Debt Issuance Costs*,” which requires debt issuance costs to be presented in the balance sheet as a direct deduction from the carrying value of the associated debt liability, consistent with the presentation of a debt discount. For public business entities, the amendments in this update are effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. Early adoption of the amendments in this update is permitted for financial statements that have not been previously issued. The Fund is assessing the impact of the adoption of ASU 2015-3 on its financial statements.

In May 2015, the FASB issued Accounting Standards Update (“ASU”) 2015-07, “*Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*.” Under the amendments in this Update, investments for which fair value is measured at net asset value per share (or its equivalent) using the practical expedient should not be categorized in the fair value hierarchy. Removing those investments from the fair value hierarchy not only eliminates the diversity in practice resulting from the way in which investments measured at net asset value per share (or its equivalent) with future redemption dates are classified, but also ensures that all investments categorized in the fair value hierarchy are classified using a consistent approach. Investments that calculate net asset value per share (or its equivalent), but for which the practical expedient is not applied will continue to be included in the fair value hierarchy. ASU 2015-07 is effective for annual reporting periods beginning after December 15, 2015, and interim periods within those fiscal years. The Fund is assessing the impact of adoption of ASU 2015-07 on its financial statements.

**NOTE 13. ISSUANCES OF EQUITY SECURITIES**

On June 9, 2015, the Fund issued 1.8 million shares of common stock pursuant to an underwritten public offering at a public offering price of \$15.65 per share. The total amount of capital raised from this offering was approximately \$28.2 million and net proceeds were approximately \$27.0 million after deducting underwriting discounts, commissions and offering expenses.

The Fund issued a total of 102,713 shares of common stock under the distribution reinvestment plan. The value of the shares issued under the distribution reinvestment plan for the six months ended September 30, 2015 was approximately \$1.4 million. On October 30, 2015, the Fund issued a total of 136,747 shares of common stock under the distribution reinvestment plan to shareholders of record as of September 30, 2015.

**OXFORD LANE CAPITAL CORP.**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2015**  
**(unaudited)**

**NOTE 13. ISSUANCES OF EQUITY SECURITIES – (continued)**

The value of the shares issued under the distribution reinvestment plan at October 30, 2015 for shareholders of record as of September 30, 2015 was approximately \$1.5 million.

**NOTE 14. SHARE REPURCHASE PROGRAM**

On August 26, 2015, the Fund's board of directors authorized a repurchase program to be in place until the earlier of March 31, 2016 or until \$20 million of the Fund's outstanding shares of common stock has been repurchased. Under the repurchase program, we are permitted to, but are not obligated to, repurchase our outstanding common stock in the open market from time to time provided that we comply with the prohibitions under the Fund's Insider Trading Policies and Procedures and the guidelines specified in Rule 10b-18 of the Securities Exchange Act of 1934, as amended, including certain price, market volume and timing constraints. In addition, any repurchases will be conducted in accordance with the 1940 Act. During the six months ended September 30, 2015, the Fund repurchased 33,776 shares at a weighted average price of approximately \$12.74 per share, inclusive of commissions. This represents a discount of 9.52% of the net asset value per share at March 31, 2015 and a premium of 12.44% of the net asset value per share at September 30, 2015. The total dollar amount of shares repurchased for the six months ended September 30, 2015 is approximately \$0.4 million.

**NOTE 15. SUBSEQUENT EVENTS**

On November 4, 2015, the Board of Directors declared a distribution of \$0.60 per share of common stock for the fiscal third quarter, payable on December 31, 2015 to shareholders of record as of December 16, 2015.

The Fund has evaluated events and transactions that occurred after September 30, 2015 and through the date that the financial statements were issued and noted no other events that necessitate adjustments to or disclosure in the financial statements.

## DISTRIBUTION REINVESTMENT PLAN

We have adopted a distribution reinvestment plan that provides for reinvestment of our distributions on behalf of our stockholders, unless a stockholder elects to receive cash as provided below. As a result, if our Board of Directors authorizes, and we declare, a cash distribution, our stockholders who have not opted out of our distribution reinvestment plan will have their cash distributions automatically reinvested in additional shares of our common stock, rather than receiving the cash distributions.

No action will be required on the part of a registered stockholder to have his cash distribution reinvested in shares of our common stock. A registered stockholder may elect to receive an entire distribution in cash by notifying Computershare Trust Company, N.A., the plan administrator and our transfer agent and registrar, by telephone, through the Internet or in writing so that such notice is received by the plan administrator no later than the record date for distributions to stockholders. The plan administrator will set up an account for shares acquired through the plan for each stockholder who has not elected to receive distributions in cash and hold such shares in non-certificated form. Upon request by a stockholder participating in the plan, received by telephone, through the Internet or writing prior to the record date, the plan administrator will, instead of crediting shares to the participant's account, issue a certificate registered in the participant's name for the number of whole shares of our common stock and a check for any fractional share, less any applicable fees.

Those stockholders whose shares are held by a broker or other financial intermediary may receive distributions in cash by notifying their broker or other financial intermediary of their election.

We expect to use primarily newly-issued shares to implement the plan, whether our shares are trading at a premium or at a discount to net asset value. Under such circumstances, the number of shares to be issued to a stockholder is determined by dividing the total dollar amount of the distribution payable to such stockholder by an amount equal to ninety-five (95%) percent of the market price per share of our common stock at the close of regular trading on the Nasdaq Global Select Market on the valuation date fixed by our Board of Directors for such distribution. Market price per share on that date will be the closing price for such shares on the Nasdaq Global Select Market or, if no sale is reported for such day, at the average of their electronically reported bid and asked prices. We reserve the right to purchase shares in the open market in connection with our implementation of the plan. Shares purchased in open market transactions by the plan administrator will be allocated to a stockholder based on the average purchase price, excluding any brokerage charges or other charges, of all shares of common stock purchased in the open market. The number of shares of our common stock to be outstanding after giving effect to payment of the distribution cannot be established until the value per share at which additional shares will be issued has been determined and elections of our stockholders have been tabulated.

There is no charge to stockholders for receiving their distributions in the form of additional shares of our common stock. Any transaction fees, brokerage charges, plan administrator's fees or any other charges for handling distributions in stock are paid by us. There are no brokerage charges with respect to shares we have issued directly as a result of distributions payable in stock. If a participant elects by telephonic, Internet or written notice to the plan administrator to have the plan administrator sell part or all of the shares held by the plan administrator in the participant's account and remit the proceeds to the participant, the plan administrator is authorized to deduct a \$2.50 transaction fee plus brokerage charges from the proceeds.

Stockholders who receive distributions in the form of stock are subject to the same federal, state and local tax consequences as are stockholders who elect to receive their distributions in cash. The amount of the distribution for U.S. federal income tax purposes will be equal to the fair market value of the stock received. A stockholder's basis for determining gain or loss upon the sale of stock received in a distribution from us will be equal to the amount treated as a distribution for U.S. federal income tax purposes.

The plan may be terminated by us upon notice in writing mailed to each participant at least 30 days prior to any record date for the payment of any dividend or distribution by us. All correspondence concerning the plan should be directed to the plan administrator as follows: through the Internet at [www.computershare/investor](http://www.computershare/investor), telephone number is 1-800-426-5523 and written correspondence can be mailed to Computershare Trust Company, N.A., P.O. Box 30170, College Station, TX 77845.

## MANAGEMENT

Our Board of Directors oversees our management. The Board of Directors currently consists of five members, three of whom are not “interested persons” of Oxford Lane Capital Corp. as defined in Section 2(a)(19) of the 1940 Act. We refer to these individuals as our independent directors. Our Board of Directors elects our officers, who serve at the discretion of the Board of Directors. The responsibilities of each director will include, among other things, the oversight of our investment activity, the quarterly valuation of our assets, and oversight of our financing arrangements. The Board of Directors has also established an Audit Committee and a Valuation Committee, and may establish additional committees in the future.

Our directors and officers and their principal occupations during the past five years are set forth below. Our prospectus includes additional information about our directors and is available, without charge, upon request by calling (203) 983-5275.

### Biographical Information

#### *Directors*

Our directors have been divided into two groups — interested directors and independent directors. An interested director is an “interested person” as defined in Section 2(a)(19) of the 1940 Act.

#### **Interested Directors**

*Messrs. Cohen and Rosenthal are “interested persons” of Oxford Lane Capital as defined in the 1940 Act. Messrs. Cohen and Rosenthal are interested persons of Oxford Lane Capital due to their positions as Chief Executive Officer and President, respectively, of Oxford Lane Capital and Oxford Lane Management, Oxford Lane Capital’s investment adviser, and as the managing member and non-managing member, respectively, of BDC Partners, the administrator for Oxford Lane Capital.*

**Jonathan H. Cohen** has served as Chief Executive Officer of both Oxford Lane Capital Corp. and Oxford Lane Management since 2010. Mr. Cohen has also served since 2003 as Chief Executive Officer of both TICC Capital Corp. (NasdaqGS: TICC), a publicly traded business development company, and TICC Management, LLC, TICC Capital Corp.’s investment adviser, and as the managing member of BDC Partners. Mr. Cohen has also served since November 2015 as Chief Executive Officer of Oxford Bridge Management, LLC, the investment manager of Oxford Bridge, LLC, a private investment fund. Mr. Cohen is

also a member of the Board of Directors of TICC Capital Corp. Previously, Mr. Cohen managed technology equity research groups at Wit Capital, Merrill Lynch, UBS and Smith Barney. Mr. Cohen is a member of the Board of Trustees of Connecticut College. Mr. Cohen received a B.A. in Economics from Connecticut College and an M.B.A. from Columbia University. Mr. Cohen's depth of experience in managerial positions in investment management, securities research and financial services, as well as his intimate knowledge of our business and operations, gives our Board of Directors valuable industry-specific knowledge and expertise on these and other matters.

**Saul B. Rosenthal** has served as President of both Oxford Lane Capital Corp. and Oxford Lane Management since 2010. Mr. Rosenthal has also served as President since 2004 of TICC Capital Corp. (NasdaqGS: TICC), a publicly traded business development company. Mr. Rosenthal has also served since November 2015 as President of Oxford Bridge Management, LLC, the investment manager of Oxford Bridge, LLC, a private investment fund. Mr. Rosenthal was previously an attorney at the law firm of Shearman & Sterling LLP. Mr. Rosenthal serves on the boards of Algorithmic Implementations, Inc. (d/b/a Ai Squared), the National Museum of Mathematics and the New York City chapter of the Young Presidents' Organization (YPO). Mr. Rosenthal received a B.S., magna cum laude, from the Wharton School of the University of Pennsylvania, a J.D. from Columbia University Law School, where he was a Harlan Fiske Stone Scholar, and a LL.M. (Taxation) from New York University School of Law. Mr. Rosenthal's depth of experience in managerial positions in investment management, as well as his intimate knowledge of our business and operations, gives the Board of Directors the valuable perspective of a knowledgeable corporate leader.

### **Independent Directors**

*The following directors are not "interested persons" of Oxford Lane Capital, as defined in the 1940 Act.*

**Mark J. Ashenfelter** presently serves as a Senior Vice President and the General Counsel of Haebler Capital, a private investment company located in Greenwich, CT. Prior to joining Haebler Capital in 1994, Mr. Ashenfelter was an associate at Cravath, Swaine & Moore from 1985 to 1992 and Cadwalader, Wickersham & Taft from 1992 to 1994. Mr. Ashenfelter received a B.A., cum laude, from Harvard University, a J.D., magna cum laude, from New York Law School, where he was Managing Editor of the Law Review, and a LL.M. (Taxation) from New York University School of Law. Mr. Ashenfelter's extensive corporate legal experience, particularly in connection with investment companies, provides our Board of Directors with valuable insight and perspective.

**John Reardon** is the principal of Reardon Consulting, LLP, which specializes in providing management consulting services to technology companies in the telecom, software, and cyber security industries. Mr. Reardon also serves as the Managing Director of Choctaw Telecom LLC. Previously, Mr. Reardon managed telecommunications companies in the mobile voice, data and engineering services markets as Chief Executive Officer and a member of the Board of Directors of Mobex Communications, Inc. from 2001 to 2005. From 1997 – 2001, he served as General Counsel and Secretary of the Board of Directors of Mobex Communications, Inc. Mr. Reardon began his career in telecom law at the boutique Washington, DC firm of Keller and Heckman, LLP. Mr. Reardon received a Bachelor of Arts degree in Political Science, summa cum laude, from Boston University, and earned his J.D. from Columbia Law School. He is admitted to the New York State Bar and the Washington, DC Bar, and is the past president of the Columbia Law School Alumni Association of Washington, DC. Mr. Reardon's extensive experience as a senior corporate executive provides our Board of Directors the perspective of a knowledgeable corporate leader.

**David S. Shin** presently serves as an asset management professional at Perella Weinberg Partners, a financial services firm. From 2010 to 2011, Mr. Shin served as a Managing Director at Bentley Associates, an investment banking firm. Prior to joining Bentley Associates, Mr. Shin worked in the Global Real Estate Investment Banking Group at Deutsche Bank Securities from 2005 to 2008, and in the Real Estate & Lodging Group of Citigroup Global Markets from 2004 to 2005. Prior to that, Mr. Shin worked for William Street Advisors, LLC, a boutique financial advisory firm affiliated with Saratoga Management Company, from 2002 to 2004. After receiving his J.D. in 1995, Mr. Shin was a member of the Healthcare Group of Dean Witter Reynolds from 1995 to 1996, and was subsequently a member of the Mergers & Acquisitions Group of Merrill Lynch & Co. from 1996 to 2002. Mr. Shin started his career as a CPA in the Corporate Tax Department of KPMG Peat Marwick's Financial Institutions Group, where he served from 1990 to 1992,

before attending law school. Mr. Shin received a B.S., magna cum laude, from The Wharton School at the University of Pennsylvania and a J.D. from Columbia Law School. Mr. Shin's extensive experience in investment banking provides the Board of Directors with valuable insights of an experienced and diligent financial professional, as well as a diverse perspective.

**Executive Officers Who Are Not Directors**

**Bruce L. Rubin** has served as our Chief Financial Officer and Corporate Secretary since August 2015, and as our Treasurer and Controller since our initial public offering in 2011. Mr. Rubin has also served as TICC Capital Corp.'s Controller since 2005, TICC Capital Corp.'s Treasurer since 2009, and TICC Capital Corp.'s Chief Financial Officer, Chief Accounting Officer and Corporate Secretary since August 2015. Mr. Rubin also currently serves as the Chief Financial Officer and Secretary of Oxford Lane Management, TICC Management, LLC, BDC Partners, and Oxford Bridge Management, LLC, the investment manager of Oxford Bridge, LLC, a private investment fund. From 1995 to 2003, Mr. Rubin was the Assistant Treasurer & Director of Financial Planning of the New York Mercantile Exchange, Inc., the largest physical commodities futures exchange in the world and has extensive experience with Sarbanes-Oxley, treasury operations and SEC reporting requirements. From 1989 to 1995, Mr. Rubin was a manager in financial operations for the American Stock Exchange, where he was primarily responsible for budgeting matters. Mr. Rubin began his career in commercial banking as an auditor primarily of the commercial lending and municipal bond dealer areas. Mr. Rubin received his BBA in Accounting from Hofstra University where he also obtained his Masters of Business Administration in Finance.

**Gerald Cummins** has served as our Chief Compliance Officer, as well as the Chief Compliance Officer of Oxford Lane Management, TICC Capital Corp., TICC Management, LLC, since June 2015 pursuant to an agreement between us and Alaric, a compliance consulting firm. Mr. Cummins has also served since November 2015 as the Chief Compliance Officer of Oxford Bridge Management, LLC, the investment manager of Oxford Bridge, LLC, a private investment fund. Mr. Cummins has been a Director of Alaric since June 2014. Prior to joining Alaric, Mr. Cummins was a consultant for Barclays Capital Inc. from 2012 to 2013, where he participated in numerous compliance projects on pricing and valuation, compliance assessments, and compliance policy and procedure development. Prior to his consulting work at Barclays, Mr. Cummins was from 2010 to 2011 the COO and the CCO for BroadArch Capital and from 2009 to 2011 the CFO and CCO to its predecessor New Castle Funds, a long-short equity asset manager. Prior to that, Mr. Cummins spent 25 years at Bear Stearns Asset Management (BSAM), where he was a Managing Director and held senior compliance, controllers and operations risk positions. Mr. Cummins graduated with a B.A. in Mathematics from Fordham University.

**Compensation of Directors**

The following table sets forth compensation of our directors for the six months ended September 30, 2015.

Name	Fees Earned <sup>(1)</sup>	All Other Compensation <sup>(2)</sup>	Total
<b>Interested Directors</b>			
Jonathan H. Cohen . . . . .	—	—	—
Saul B. Rosenthal . . . . .	—	—	—
<b>Independent Directors</b>			
Mark J. Ashenfelter . . . . .	\$33,380	—	\$33,380
John Reardon . . . . .	\$33,380	—	\$33,380
David S. Shin . . . . .	\$36,740	—	\$36,740

(1) For a discussion of the independent directors' compensation, see below.

(2) We do not maintain a stock option plan, non-equity incentive plan or pension plan for our directors.

Until July 29, 2015, independent directors received an annual fee of \$35,000, which was increased to \$75,000 effective July 29, 2015. In addition, the independent directors receive \$2,000 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each Board of Directors meeting,

\$1,500 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each Valuation Committee meeting and \$1,000 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each Audit Committee meeting. Until July 29, 2015, the Chairman of the Audit Committee also received an additional annual fee of \$5,000, which was increased to \$10,000 effective July 29, 2015. No compensation is paid to directors who are interested persons of Oxford Lane Capital as defined in the 1940 Act.

#### **Compensation of Chief Executive Officer and Other Executive Officers**

We do not have a compensation committee because our executive officers will not receive any direct compensation from Oxford Lane Capital. Mr. Cohen, our Chief Executive Officer, and Mr. Rosenthal, our President, through their ownership interest in BDC Partners, the managing member of Oxford Lane Management, are entitled to a portion of any profits earned by Oxford Lane Management, which includes any fees payable to Oxford Lane Management under the terms of the Investment Advisory Agreement, less expenses incurred by Oxford Lane Management in performing its services under the Investment Advisory Agreement. Messrs. Cohen and Rosenthal do not receive any additional compensation from Oxford Lane Management in connection with the management of our portfolio.

The compensation of Mr. Rubin, our Chief Financial Officer, Treasurer and Corporate Secretary, is paid by our administrator, BDC Partners, subject to reimbursement by us of an allocable portion of such compensation for services rendered by Mr. Rubin to Oxford Lane Capital.

Mr. Cummins, our Chief Compliance Officer, is a director of Alaric Compliance Services, LLC (“Alaric”), and performs his functions under the terms of an agreement between us and Alaric.

## BOARD APPROVAL OF THE INVESTMENT ADVISORY AGREEMENT

At an in-person meeting of our Board of Directors held on July 29, 2015, our Board of Directors unanimously voted to continue the investment advisory agreement (the “Advisory Agreement”) by and between the Fund and Oxford Lane Management, LLC (“Oxford Lane Management”). In reaching a decision to continue the investment advisory agreement, the Board of Directors reviewed a significant amount of information and considered, among other things:

- the nature, quality and extent of the advisory and other services to be provided to the Fund by Oxford Lane Management;
- the investment performance of the Fund and Oxford Lane Management;
- comparative data with respect to advisory fees or similar expenses paid by other registered management investment companies with similar investment objectives;
- the Fund’s projected operating expenses and expense ratio compared to registered management investment companies with similar investment objectives;
- any existing and potential sources of indirect income to Oxford Lane Management or BDC Partners, LLC from their relationships with the Fund and the profitability of those relationships;
- information about the services to be performed and the personnel performing such services under the Advisory Agreement;
- the organizational capability and financial condition of Oxford Lane Management and its affiliates;
- Oxford Lane Management’s practices regarding the selection and compensation of brokers that may execute portfolio transactions for the Fund and the brokers’ provision of brokerage and research services to Oxford Lane Management; and
- the possibility of obtaining similar services from other third party service providers or through an internally managed structure.

Based on the information reviewed and the discussions detailed above, the Board of Directors, including all of the directors who are not “interested persons” as defined in the 1940 Act, concluded that fees payable to Oxford Lane Management pursuant to the Advisory Agreement were reasonable in relation to the services to be provided. The Board of Directors did not assign relative weights to the above factors or the other factors considered by it. In addition, the Board of Directors did not reach any specific conclusion on each factor considered, but conducted an overall analysis of these factors. Individual members of the Board of Directors may have given different weights to different factors.
