b. If attributing multiple classification categories to the holding, indicate which of the three circumstances listed in the Instructions to Item C.7 is applicable.

Instructions to Item C.7 Funds may choose to indicate the percentage amount of a holding attributable to multiple classification categories only in the following circumstances: (1) if portions of the position have differing liquidity features that justify treating the portions separately; (2) if a fund has multiple sub-advisers with differing liquidity views; or (3) if the fund chooses to classify the position through evaluation of how long it would take to liquidate the entire position (rather than basing it on the sizes it would reasonably anticipated trading). In (1) and (2), a fund would classify using the reasonably anticipated trade size for each portion of the position.

Item C.8. Indicate the level within the fair value hierarchy in which the fair value measurements fall pursuant to U.S. Generally Accepted Accounting Principles (ASC 820, Fair Value Measurement). [1/2/3] Report "N/A" if the investment does not have a level associated with it (i.e., net asset value used as the practical expedient).

(1) We do not "control" and are not an "affiliate" of any of our portfolio companies, each as defined in the Investment Company Act of 1940, as amended (the "1940 Act").

In general, under the 1940 Act, we would be presumed to "control" a portfolio company if we owned more than 25% of its voting securities and would be an "affiliate" of a portfolio company if we owned 5% or more of its voting securities.

(2) Fair value is determined in good faith by the Board of Directors of the Fund.

(3) Cost value reflects accretion of original issue discount or market discount.

(4) The subordinated shares represent an investment in a warehouse facility, which is a financing structure intended to aggregate loans that may be used to form the basis of a CLO vehicle.

(5) Cost value reflects accretion of effective yield less any cash distributions received or entitled to be received from CLO equity investments.

(6) The CLO secured notes generally bear interest at a rate determined by reference to three-month LIBOR which resets quarterly. For each CLO debt investment, the rate

provided is as of December 31, 2023.

(7) The CLO subordinated notes, preferred shares and income notes are considered equity positions in the CLO funds. Equity investments are entitled to recurring distributions which are generally equal to the remaining cash flow of the payments made by the underlying fund's securities less contractual payments to debt holders and fund expenses.

The estimated yield indicated is based upon

a current projection of the amount and timing of these recurring distributions and the estimated amount of repayment of principal upon termination. Such projections are periodically reviewed and adjusted, and the estimated yield may not ultimately be realized.

(8) Fair value includes the Fund's interest in subordinated fee notes, and represents discounted cash flows associated with fees earned from CLO equity investments.

(9) Investment has not made inaugural distribution for relevant period end. Please refer to "Note 3. Summary of Significant Accounting Policies — Investment Income" in Oxford Lane Capital Corp. most recently filed Form N-CSR for the six months ended September 30, 2023.

(10) The CLO equity investment was optionally redeemed. Expected value of residual distributions, once received, is anticipated to be recognized as return of capital, pending any remaining amortized cost, and/or realized gain for any amounts

received in excess of such amortized cost. See "Note 3. Summary of Significant Accounting Policies — Securities Transactions" in Oxford Lane Capital Corp. most recently filed Form N-CSR for the six months ended September 30, 2023.

(11) Investment is co-invested with the Fund's affiliates. See "Note 5. Related Party Transactions" in Oxford Lane Capital Corp. most recently filed Form N-CSR for the six months ended September 30, 2023.

(12) Represents cash equivalents held in a money market account as of December 31, 2023.

(13) The fair value of the investment was determined using significant unobservable inputs. See "Note 4. Fair Value" in Oxford Lane Capital Corp. most recently filed Form N-CSR for the six months ended September 30, 2023.

(14) The Fund generally acquires its investments in transactions not subject to registration under the Securities Act of 1933, as amended (the "Securities Act"). These investments are generally subject to restrictions as "restricted securities" (within the meaning of the Securities Act).

(15) Acquisition date represents the initial date of purchase.

(16) Cost and fair value total represents multiple investments which were purchased within one year prior to December 31, 2023.

(17) The principal balance outstanding for this debt investment, in whole or in part, is indexed to the 90-day Secured Overnight Financing Rate ("SOFR").

(18) Cost value reflects amortized cost.

(19) As of December 31, 2023, the effective yield has been estimated to be 0%. The aggregate projected amount of future recurring distributions and terminal principal payment is less than the amortized investment cost.

(20) As of December 31, 2023, the investment includes interest income capitalized as additional investment principal ("PIK" Interest). The PIK interest rate for CLO debt positions represents the interest rate at payment date when
