- We do not “control” and are not an “affiliate” of any of our portfolio companies, each as defined in the Investment Company Act of 1940, as amended (the “1940 Act”). In general, under the 1940 Act, we would be presumed to “control” a portfolio company if we owned more than 25% of its voting securities and would be an “affiliate” of a portfolio company if we owned 5% or more of its voting securities.
- Fair value is determined in good faith by the Board of Directors of the Fund.
- Cost value reflects accretion of original issue discount or market discount. Investments on non-accrual status are not accruing original issue discount or market discount.
- Represents an investment in a warehouse facility, which is a financing structure intended to aggregate loans that may be used to form the basis of a CLO vehicle.
- Cost value reflects accretion of effective yield less any cash distributions received or entitled to be received from CLO equity investments.
- As of June 30, 2026, the investment includes interest income capitalized as additional investment principal (Payment-In-Kind interest or “PIK”). The PIK interest rate for CLO debt positions represents the interest rate at payment date when PIK interest is received. Please refer to “Note 2. Summary of Significant Accounting Policies — Payment-In-Kind” in Oxford Lane Capital Corp.’s most recently filed Form N-CSR for the year ended March 31, 2026.
- The CLO subordinated notes, preferred shares, preference shares, and income notes are considered equity positions in the CLO vehicle. Equity investments are entitled to recurring distributions which are generally equal to the remaining cash flow of the payments made by the CLO’s securities less contractual payments to debt holders and fund expenses. The estimated yield indicated is based upon a current projection of the amount and timing of these recurring distributions and the estimated amount of repayment of principal upon termination. Such projections are periodically reviewed and adjusted, and the estimated yield may not ultimately be realized.

- (8) Fair value includes the Fund's interest in subordinated fee notes, and represents discounted cash flows associated with fees earned from those fee notes.
- (9) Investment has not made its inaugural distribution for relevant period end. Please refer to "Note 2. Summary of Significant Accounting Policies — Investment Income" in Oxford Lane Capital Corp.'s most recently filed Form N-CSR for the year ended March 31, 2026.
- (10) The CLO equity investment was optionally redeemed. Expected value of residual distributions, once received, is anticipated to be recognized as return of capital, pending any remaining amortized cost, and/or realized gain for any amounts received in excess of such amortized cost. See "Note 2. Summary of Significant Accounting Policies — Securities Transactions" in Oxford Lane Capital Corp.'s most recently filed Form N-CSR for the year ended March 31, 2026.
- (11) Investment is co-invested with the Fund's affiliates. See "Note 4. Related Party Transactions" in Oxford Lane Capital Corp.'s most recently filed Form N-CSR for the year ended March 31, 2026.
- (12) Represents cash equivalents held in a money market fund as of June 30, 2026.
- (13) The fair value of the investment was determined using significant unobservable inputs. Please refer to "Note 3. Fair Value" in Oxford Lane Capital Corp.'s most recently filed Form N-CSR for the year ended March 31, 2026.

- (18) Cost value reflects amortized cost.
- (19) As of June 30, 2026, the effective yield has been estimated to be 0%. The aggregate projected amount of future recurring distributions and terminal principal payment is less than the amortized investment cost.
